Karl Marx's Theory of Revolution I

Hal Draper

Karl Marx's Theory of Revolution I Hal Draper

Volume I of Hal Draper's definitive and masterful study of Marx's political thought, which focuses on Marx's attitude toward democracy, the state, intellectuals as revolutionaries, and much, much more.

This series, *Karl Marx's Theory of Revolution*, represents an exhaustive and definitive treatment of Marx's political theory, policy, and practice. Marx and Engels paid continuing attention to a host of problems of revolution, in addition to constructing their "grand theory." All these political and social analyses are brought together in these volumes, as the author draws not only on the original writings of Marx and Engels but also on the sources that they used in formulating their ideas and the many commentaries on their published work.

Draper's series is a massive and immensely valuable scholarly undertaking. The bibliography alone will stand as a rich resource for years to come. Yet despite the scholarly treatment, the writing is direct, forceful, and unpedantic throughout, and will appeal to the beginning student as much as the advanced reader.
