Experience is the best teacher. Learn from someone who's been there. In this book, I share my real world experiences and scenarios as a clinical pharmacist to help you get a better grasp on medication management. I've been acknowledged in the Wall Street Journal, American Journal of Nursing, National Association Directors of Nursing, Pharmacy Times, and Pharmacy Today. My goal is to teach you clinical common sense when it comes to medications. If you are a healthcare professional (pharmacist, nurse, primary provider etc.) involved in medication management, this is a book full of clinical pearls, case studies, and medication mistakes that every healthcare professional should know. If you're passionate about learning more about polypharmacy, drug interactions, medication therapy management and common medication mistakes, you're going to love this book.
