# Contemporary Asian America (second edition): A Multidisciplinary Reader

## Contemporary Asian America (second edition): A Multidisciplinary Reader

When Contemporary Asian America was first published, it exposed its readers to developments within the discipline, from its inception as part of the ethnic consciousness movement of the 1960s to the more contemporary theoretical and practical issues facing Asian America at the century's end. This new edition features a number of fresh entries and updated material. It covers such topics as Asian American activism, immigration, community formation, family relations, gender roles, sexuality, identity, struggle for social justice, interethnic conflict/coalition, and political participation. As in the first edition, Contemporary Asian America provides an expansive introduction to the central readings in Asian American Studies, presenting a grounded theoretical orientation to the discipline and framing key historical, cultural, economic, and social themes with a social science focus. This critical text offers a broad overview of Asian American studies and the current state of Asian America.
