Design for Electrical and Computer Engineers

Ralph Ford, Chris Coulston

Design for Electrical and Computer Engineers Ralph Ford, Chris Coulston

This book is written for **students and teachers engaged in electrical and computer engineering (ECE) design projects**, primarily in the senior year. It guides students and faculty through the steps necessary for the successful execution of design projects. The objective of the text is to provide a treatment of the design process in ECE with a sound academic basis that is integrated with practical application. It has a strong guiding vision -- that a solid understanding of the **Design Process, Design Tools, and the right mix of Professional Skills are critical for project and career success**. This text is unique in providing a comprehensive design treatment for ECE.
