Formal Methods and Software Engineering: 5th International Conference on Formal Engineering Methods, ICFEM 2003, Singapore, November 5-7, 2003, Proceedings (Lecture Notes in Computer Science)

This volume contains the proceedings of the 2003 International Conference on Formal Engineering Methods (ICFEM 2003). The conference was the 5th in a series that began in 1997. ICFEM 2003 was held in Singapore during 5–7 November 2003. ICFEM 2003 aimed to bring together researchers and practitioners from industry, academia, and government to advance the state of the art in formal engineering methods and to encourage a wider uptake of formal methods in industry. The Program Committee received 91 submissions from more than 20 countries in various regions. After each paper was reviewed by at least three referees in each relevant field, 34 high-quality papers were accepted based on originality, technical content, presentation and relevance to formal methods and software engineering. We wish to sincerely thank all authors who submitted their work for consideration. We would also like to thank the Program Committee members and other reviewers for their great efforts in the reviewing and selecting process.

We are indebted to the three keynote speakers, Prof. Ian Hayes of the University of Queensland, Prof. Mathai Joseph of the Tata Research, Development and Design Centre, and Dr. Colin O'Halloran of QinetiQ, for accepting our invitation to address the conference.

From reader reviews:

Margie Turner:

Information is provisions for those to get better life, information today can get by anyone at everywhere. The information can be a expertise or any news even a problem. What people must be consider when those information which is inside the former life are challenging be find than now could be taking seriously which one is suitable to believe or which one the actual resource are convinced. If you obtain the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All of those possibilities will not happen in you if you take Formal Methods and Software Engineering: 5th International Conference on Formal Engineering Methods, ICFEM 2003, Singapore, November 5-7, 2003, Proceedings (Lecture Notes in Computer Science) as the daily resource information.

William Ullrich:

Can you one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Aim to pick one book that you never know the inside because don't determine book by its include may doesn't work the following is difficult job because you are frightened that the inside maybe not seeing that fantastic as in the outside appear likes. Maybe you answer could be Formal Methods and Software Engineering: 5th International Conference on Formal Engineering Methods, ICFEM 2003, Singapore, November 5-7, 2003, Proceedings (Lecture Notes in Computer Science) why because the great cover that make you consider regarding the content will not disappoint you actually. The inside or content is definitely fantastic as the outside or perhaps cover. Your reading 6th sense will directly show you to pick up this book.

Barbara Akins:

The book untitled Formal Methods and Software Engineering: 5th International Conference on Formal Engineering Methods, ICFEM 2003, Singapore, November 5-7, 2003, Proceedings (Lecture Notes in Computer Science) contain a lot of information on this. The writer explains your ex idea with easy means. The language is very clear and understandable all the people, so do not necessarily worry, you can easy to read the idea. The book was authored by famous author. The author gives you in the new time of literary works. You can read this book because you can read on your smart phone, or device, so you can read the book inside anywhere and anytime. If you want to buy the e-book, you can start their official web-site and also order it. Have a nice read.

William Holt:

In this period globalization it is important to someone to get information. The information will make professionals understand the condition of the world. The health of the world makes the information simpler to share. You can find a lot of references to get information example: internet, newspapers, book, and soon. You will see that now, a lot of publisher that print many kinds of book. The actual book that recommended

for your requirements is Formal Methods and Software Engineering: 5th International Conference on Formal Engineering Methods, ICFEM 2003, Singapore, November 5-7, 2003, Proceedings (Lecture Notes in Computer Science) this publication consist a lot of the information with the condition of this world now. This particular book was represented so why is the world has grown up. The dialect styles that writer use for explain it is easy to understand. The writer made some investigation when he makes this book. Honestly, that is why this book suited all of you.
