Neural Networks in Chemistry and Drug Design, 2nd Edition

Jure Zupan, Johann Gasteiger

Neural Networks in Chemistry and Drug Design, 2nd Edition Jure Zupan, Johann Gasteiger

The second edition of this highly regarded text has been substantially expanded. Part VI "Applications" is updated from 12 to 21 examples with a new focus on applications in the area of drug design.

From reviews of the first edition:

'This book offers a sound introduction to artificial neuronal networks, with insights into their architecture, functioning, and applications, which is intended not only for chemists... The excellent quality of the contents and the presentation should ensure that it reaches a wide international readership.' (Angewandte Chemie)

'One of the most useful aspects of the book is a walk-through of the whole process for each application: experimental design, choice and organization of the data, selection of network architecture and parameters, and analysis of the results... The careful approach embodied in this book is an antidote to the hype which has attended neuronal networks in recent years.' (Journal of the American Chemical Society)

'... highly recommended ... could become a scientific bestseller ...' (Spectroscopy Europe)

'The attractive and clear presentation of this book make it recommendable to the complete novice.' (The Analyst)

'We strongly recommend it for library purchase and it will be a useful text for lecture courses.' (Chemistry & Industry)

From reader reviews:

Jennifer Oaks:

The actual book Neural Networks in Chemistry and Drug Design, 2nd Edition has a lot of knowledge on it. So when you read this book you can get a lot of gain. The book was written by the very famous author. The writer makes some research just before write this book. This book very easy to read you can get the point easily after perusing this book.

Jeffrey Haller:

Are you kind of occupied person, only have 10 or 15 minute in your time to upgrading your mind talent or thinking skill also analytical thinking? Then you are receiving problem with the book compared to can satisfy your short time to read it because all of this time you only find book that need more time to be study. Neural Networks in Chemistry and Drug Design, 2nd Edition can be your answer since it can be read by you actually who have those short spare time problems.

Clifford Harvey:

This Neural Networks in Chemistry and Drug Design, 2nd Edition is brand new way for you who has intense curiosity to look for some information because it relief your hunger associated with. Getting deeper you on it getting knowledge more you know or you who still having little bit of digest in reading this Neural Networks in Chemistry and Drug Design, 2nd Edition can be the light food for yourself because the information inside that book is easy to get through anyone. These books build itself in the form which can be reachable by anyone, sure I mean in the e-book contact form. People who think that in guide form make them feel tired even dizzy this book is the answer. So there is no in reading a guide especially this one. You can find actually looking for. It should be here for you. So , don't miss it! Just read this e-book style for your better life in addition to knowledge.

Jaime Friend:

What is your hobby? Have you heard which question when you got pupils? We believe that that concern was given by teacher with their students. Many kinds of hobby, Everybody has different hobby. And you also know that little person like reading or as studying become their hobby. You need to know that reading is very important and also book as to be the thing. Book is important thing to add you knowledge, except your teacher or lecturer. You see good news or update concerning something by book. Different categories of books that can you choose to adopt be your object. One of them is this Neural Networks in Chemistry and Drug Design, 2nd Edition.
