## **Lessons from Past Floods: Destruction, Restoration and Future Preparation: A Guide for Being Prepared for a Natural Disaster** Julia L Wright

Reading about past floods and learning how to prepare for a flood or another natural disaster may not sound that interesting, but if you find yourself faced with an evacuation from your home or the consequences of a natural disaster, you will be wishing you had been more prepared.

When in the midst of a natural disaster, it becomes a page turning thriller of an adventure that you can be the hero for if you are properly prepared.

"This is a concise read that includes some background, first-hand experience and the way forward in preparedness for ANY locale, even those that are new to what we normally think of as 'flood prone'. I live in New York City and our recent bout with previously unheard of flooding makes Lessons From Past Floods an important and potentially life-saving read no matter where you live." Bob Estramera

Floods are the most common natural disaster experienced in the United States. Annually over one-third of economic losses caused by natural disasters can be attributed to floods.

Climate changes and unchecked urban development have affected the way flood risk is managed. Storm water systems have not kept pace with the growing population in many areas.

Wildfires in the Western States have turned many acres of normally very absorbent soil into hydrophobic soil, increasing the amount of rain water will be tumbling into creeks and heading downstream in larger amounts and increasing the chances of flooding.

This book is based on two floods experienced in the late 1990's in a small Historic tourist town in the foothills of Colorado.

Knowledge about how to discern if you live in a flood risk area or will be traveling where past natural disasters have occurred can help you be more prepared if faced with a weather or earth shaking related natural disaster.

This book can help you understand ways to manage the risk of flooding on your property. Knowledge of signs of floods in your area and having an evacuation plan are paramount to protecting your property and family during times of a natural disaster.

Use this book as a guide for ways to be more prepared and help ensure the safety of your family if a flood, or any natural disaster happens in your vicinity.

Creating and storing Emergency Disaster Survival Bags and Bug Out Bags or Buckets at your home is simple and can make your evacuation more efficient. Having many items already packed and ready to take with you can help prevent having a feeling of panic when faced with such a challenging situation.

This book includes important knowledge everyone can use to be more prepared for a flood and how to handle the aftermath of a flood in their vicinity.

There are photographs and two true stories about floods that occurred in Manitou Springs, CO in the late 1990's to help give a better perspective of the types of weather situations that can cause a flood and the destructive nature of a flood. The photographs of the beautifully restored historical buildings can give hope to individuals or a town that experiences the devastating power of flood.

Some of the topics covered in this book include:

- \* What is a flood?
- \* Cautions about Rapidly Flowing Water
- \* Forest Fires and the Threat of Flooding
- \* Pikes Peak Region Flood Stories
- \* Manitou Springs Photos: Flooded and Restored
- \* Flood Insurance
- \* Risk Assessment
- \* Local Area Evacuation Plans
- \* Appropriate Steps to Take to Be Prepared for a Natural Disaster
- \* A Guide for How to Prepare for an Evacuation
- \* Ways to Prepare Your Family and Property in case of a Flood
- \* How to Pack Disaster Preparation Survival Bags & Bug Out Bags/Buckets
- \* What To Do During a Flood Event
- \* Safety Precautions to Take When Returning Home
- \* How to Handle Items Damaged by Flood Waters
- \* Resources for Flood Plain Maps, Insurance and more

After reading this book, you will certainly agree that preparation would always be the best defense against floods or any Natural Disaster.
