Star One: Neutron Star

Raymond L. Weil

Star One: Neutron Star Raymond L. Weil

It is the year 2044 on Earth. At the Farside observatory complex on the Moon, a startling astronomical discovery has been made. A survey for pulsars has found an x-ray source in a region of space where none has been detected before.

Upon further investigation, they find that this x-ray source is just outside of the Solar System. The astronomers are paralyzed by what they have found knowing what its disastrous ramifications might be.

A neutron star is approaching the Solar System. It appeared out of a small dust cloud that was shielding its approach. Armageddon has arrived; the star is on a trajectory that will take it through the center of the Solar System. Life on Earth will not survive its passing.

The only hope for survival will be on the massive Star One space station at the Earth-Moon Lagrange point or possibly in Tycho City deep beneath the Moon's surface. It will be a race against time to save a fraction of the Earth's frightened population.

Books in the Star One series.

Star One: Tycho City: Discovery

Star One: Neutron Star

Star One: Dark Star

A power struggle will erupt on Earth over who is to survive. On Star One and at Tycho City they prepare for the worst, unfortunately, the threat from Earth might be just as dangerous as the approaching neutron star.

From reader reviews:

Elmira McGraw:

Nowadays reading books become more and more than want or need but also turn into a life style. This reading practice give you lot of advantages. Advantages you got of course the knowledge your information inside the book this improve your knowledge and information. The data you get based on what kind of e-book you read, if you want have more knowledge just go with schooling books but if you want experience happy read one using theme for entertaining for example comic or novel. The actual Star One: Neutron Star is kind of book which is giving the reader unstable experience.

Frances Hayes:

Reading a book for being new life style in this 12 months; every people loves to examine a book. When you examine a book you can get a wide range of benefit. When you read guides, you can improve your knowledge, mainly because book has a lot of information into it. The information that you will get depend on what sorts of book that you have read. If you wish to get information about your research, you can read education books, but if you want to entertain yourself you can read a fiction books, these us novel, comics, and also soon. The Star One: Neutron Star offer you a new experience in studying a book.

Eleanor Abney:

With this era which is the greater person or who has ability in doing something more are more valuable than other. Do you want to become certainly one of it? It is just simple method to have that. What you must do is just spending your time not very much but quite enough to experience a look at some books. One of the books in the top listing in your reading list is actually Star One: Neutron Star. This book that is qualified as The Hungry Hillside can get you closer in becoming precious person. By looking up and review this reserve you can get many advantages.

Karin Decker:

As a college student exactly feel bored to reading. If their teacher asked them to go to the library as well as to make summary for some e-book, they are complained. Just very little students that has reading's soul or real their leisure activity. They just do what the teacher want, like asked to go to the library. They go to there but nothing reading very seriously. Any students feel that reading through is not important, boring and can't see colorful photos on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Star One: Neutron Star can make you truly feel more interested to read.
