When a top secret 'black' project turns rogue, a shadowy organization entraps disgraced former Secret Service Agent John Mitchell into tracking down the missing scientist behind the project. What he uncovers is an insidious conspiracy reaching to the highest levels of the military industrial complex. The discovery makes him the most hunted man on earth, pursued by cold blooded assassins armed with a sinister new technology.

Aided by a woman with remarkable abilities, and an enigmatic defector from deep within the conspiracy itself, Mitchell challenges the greatest technological undertaking since the Manhattan Project. To his horror he finds that while the Manhattan Project led to the destruction of entire cities, the monolithic Siren Project threatens to destroy the very free will of Humanity itself.
