Military Neuropsychology

Carrie H. Kennedy, Jeffrey Moore

Military Neuropsychology Carrie H. Kennedy, Jeffrey Moore

...this foundational volume on military neuropsychology should be on the bookshelf of every mental health clinician that may come in contact with military service members." --**International Journal of Emergency Mental Health**

...an important text dedicated to this subspecialty in the larger field of neuropsychology...The book integrates in a coherent manner the different aspects of military neuropsychological practice and provides a clear clinical road map for neuropsychologists and other psychologists working with military personnel in various settings."--**PsycCRITIQUES**

This text covers the unique features of neuropsychological evaluations in the military. The author presents a thorough examination of the assessment needs of various military populations, with a special emphasis on traumatic brain injury, and the neurocognitive aspects of stress-related problems, such as posttraumatic stress disorder (PTSD) and decision-making under stress. The chapters of the book are designed to integrate theory and application, and include case study examples as well as a comprehensive review of the latest research.
