This re-imagining of Mary Shelley's classic novel Frankenstein is set in modern day LA's music industry. Music manager Victor Stonecraft's life takes a dramatic turn when he discovers a young street musician. Determined to turn this young man into a star, Victor shapes the man's personality and appearance to suit his needs. But Victor soon realizes he is unable to control his creation when Byron turns his newfound sexual aggression toward Victor. Seduced into a relationship he is not entirely comfortable with, Victor begins to learn more about himself and his desires than ever before. However, things quickly spiral out of control with disastrous results. This novel explores themes of sexuality and shame, fame culture, and personal accountability for one's own actions.
