In a strange twist of irony, a retired couch potato, an amateur armchair astronomer, sat at his computer recently, studying NASA's photos from Mars, exploring, examining, and discovering extraterrestrial life forms on Mars. This incredible, astonishing achievement occurred as a consequence of NASA's enthusiastic Mars exploration program, which has taken place over decades, at great expense of finances and labor. This book details the astonishing findings, and heralds a new age of investigation about life on Mars.
