Blueprints Pediatrics provides students with a concise, "need-to-know" review for the pediatrics rotation and the Boards. Each chapter is brief, written in narrative format, and includes pedagogical features such as bolded key words, tables, figures, and key points. This edition includes 2 new sections -- For the Boards, which presents 10 USMLE-style questions (answers & rationales at the end of the book) and For the Wards, a section of 2 case studies per chapters -- 40 to 50 cases, total. This edition includes 26 full-color dermatology and infectious disease photographs and multicolored flow diagrams of congenital heart defects. A website on thePoint includes the e-Book and 50-100 bonus questions in a question bank.
