Ecologism: Towards Ecological Citizenship (Concepts in the Social Sciences) Mark J. Smith

Ecological thinking within social and political theory has taken off between the 1970s and 1990s; green movements have had a dramatic impact upon political and social life, provoking conflicts of interest over major areas of public policy. Ecological concerns are often grafted onto existing approaches, but this text examines how the fundamental questions raised by a green perspective transform the terms of reference of modern thinking.
